

# Newtowne Neck State Park

## Talking Points for March 16

1. The State park is here, it is not going away. How can we work with the State in its development of the park while protecting our church and cemetery?
2. Where are the boundaries of the church?
3. Master Plan.
4. The acquisition of more land from the State.
5. Protection of the Viewscape .
6. Main gate (Access to the Church and Cemetery). Assurance of no gate for the church or cemetery.
7. State tie-in of the history of the church and Manor House with the park. This is a working parish.
8. Where to go from here? (Get involved)
9. What questions do we want to ask DNR? (Open meeting)
10. What does the parish want for the park?
11. Input on DNR master plan.
12. Who has been contacted?
13. What the parish can do? (committees, talk among ourselves)
